Little TIME OR TEMP™

Operating Instructions

Remove sticker from face of thermometer.

To Install Battery: (Fig. A) Battery type: AAA. Insert battery by sliding battery door open and inserting battery in direction as indicated.

Back Light: Press and hold "LIGHT" button. (Fig. B)

Water or Air Temp: (Fig. B) Slide switch upward to "AIR" for room temperature. Slide switch downward to "WATER" for Aquarium temperature. Place Probe with Suction Cup inside Aquarium or Wet/Dry Filter. Fully submerge probe under water. Do Not submerge meter or allow meter to get wet. Damage may occur.

Clock: To read time, press and hold "CLOCK" button. Release and display will return to temperature mode. (Fig. B)

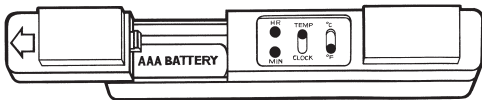

Fig. A

To Set Clock: (Fig. A)

1. Slide switch to clock position.
2. Press and hold "HR" button for 3 seconds. Hour numbers will advance to desired hour.
3. Press and hold "MIN" button for 3 seconds. Minute numbers will advance to desired positions.
4. Slide switch to "TEMP" position after clock setting.

To Set °C or °F: (Fig. A)

Slide switch upward for °C or downward for °F.
